Address was accepted and saved	Valid Test Case
Address was accepted and saved	In Valid Test Case
Both Password & Confirmation Passwords are saved	Valid Test Case
Both Password & Confirmation Passwords are saved	In Valid Test Case

Suggestion

Please Correct the Sentence by adding TRY Between Please and again

App Shouldn't Proceed to 2nd step/payment details with incomplete form instead it should prompt user to fill

User shouldn't be able to enter First & Last Name in Digits & user must be prompted to enter First and Last Name

User shouldn't be able to enter Phone Number/Cell/Tax in Alphabets and must be prompted to enter correct Phone

User Shouldn't be able to enter an invalid email

User should be able to enter the Bar Number as digits only

User should be able to enter address more than 30 characters or at least upto 150 characters

User should only be able to choose from a list of cities/states/zipcodes which belongs to the country he chooses

User Should be prompted to enter matching passwords and passwords should not be saved
